lords of the fallen - the foundation boost

This DLC is small help in the beginning of the game. Gives extra heal potion and two points of attribute. Always something but price is not adequate to its rewards.. Waste of money. Not needed.. This DLC is small help in the beginning of the game. Gives extra heal potion and two points of attribute. Always something but price is not adequate to its rewards.. Really helped me during an encounter with a Lord, since I'm not a Pro. Just enough to get that extra boost to a stat of your preference..
u2665u2665u2665u2665ing exploiting steam so i can't refund thisu2665u2665u2665u2665u2665u2665game.. pay to win dlc,

also barely makes difference.. Waste of money. Not needed.. This pack at least holds more weight than the arcane pack. It's a very minor boost, but a welcome one. It's not worth picking up at \$2, but it's worth having in the complete edition. Makes the first fight a little easier, and gives you an extra health potion over non-buyers. Can be useful. It's basically a paid buff to your character. Not recommended as a standalone purchase if you have the game but not the DLC, but recommended as a DLC if you are looking at buying the complete edition.
